

# World Wetlands Activity Sheet

The World Wetlands area of the London Wetland Centre represents 14 different global habitats and their inhabitants;

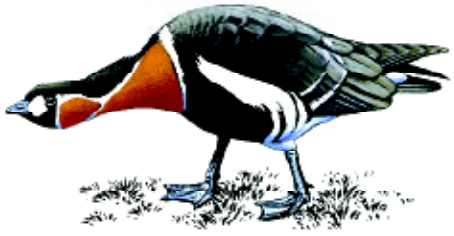

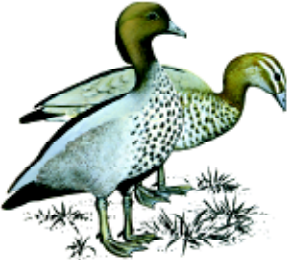

Draw a line from the birds to their homes on the map.

Walk around the world wetlands area and look for the pictured birds. One of the following signs of life (SOL) is found in each habitat. Look carefully in each area and see if you can fill in the table below.

- |  |  |   |                                       |
|--|--|---|---------------------------------------|
| <input type="checkbox"/> Hippo foot prints         | <input type="checkbox"/> Waterfall     | <input type="checkbox"/> Otter prints   | <input type="checkbox"/> Burnt trees  |
| <input type="checkbox"/> Crane foot prints         | <input type="checkbox"/> Pampas grass  | <input type="checkbox"/> Rafflesia      | <input type="checkbox"/> Seal carcass |
| <input checked="" type="checkbox"/> Snowy owl eggs | <input type="checkbox"/> Mammoth tusks | <input type="checkbox"/> Dry stone wall | <input type="checkbox"/> Crocodile    |
| <input type="checkbox"/> Woodpecker hole           | <input type="checkbox"/> Dugout canoe  | <input type="checkbox"/> Platypus hole  |                                       |
