

Quiz: Who eats who? Wetland food chains

Answers For children aged 7-11 years

Round 1: Picture round

All of the following animals are featured on the wetland wildlife cards which you used this week. Can you name them?

Q Can you name them?

1 Stickleback

2 Daubenton's bat

3 Pond skater

4 Grayling

5 (Grey) heron

Round 2: Odd one out round

In this week's session, you looked at herbivores, carnivores and omnivores. In each list below there will be a single animal that is either the only **herbivore** or the only **carnivore**. Circle the odd one out each time.

6 Otter, water vole, grass snake, pond skater.

Water vole. It is the only herbivore.

7 Dragonfly, water vole, pond snail, freshwater limpet.

Dragonfly. It is the only carnivore.

8 Heron, kingfisher, grass snake, pond snail.

Pond snail. It is the only herbivore.

9 Ramshorn snail, stickleback, Daubenton's bat, water spider.

Ramshorn snail. It is the only herbivore.

10 Water vole, otter, freshwater limpet, ramshorn snail.

Otter. It is the only carnivore.

Round 3: Producer, consumer, predator, prey

For each of the living things below, state which of the following words apply:

PRODUCER

CONSUMER

PREDATOR

PREY

Remember that more than one word may apply.

11 Heron

Consumer, predator, (prey)

13 Pond weed

Producer
