

'Treemendous' Trees

For children aged 7-11 years

Round 1: Picture round

All of the following trees were included in this week's Tree Cards.

Q Can you name them?

.....

.....

.....

.....

.....

Round 2: Deciduous or evergreen?

These trees were all included in this week's tree cards.

Q Say whether you think each tree is DECIDUOUS or EVERGREEN.

Sitka spruce

European larch

Beech

Douglas fir

Silver birch

.....

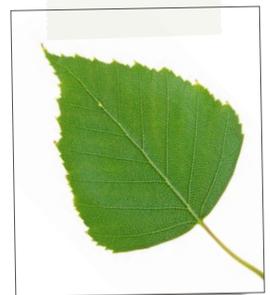

.....

.....

.....

.....

Round 3: Food factories

Q Which three things does a tree need to produce its food?

.....

Q Which gas do trees give out as they produce their food?

.....

Q Why do the answers to the questions above make trees good for the environment?

.....
.....
.....

Round 4: Mangrove trees

Mangrove trees have developed special adaptations so that they can survive in wetlands.

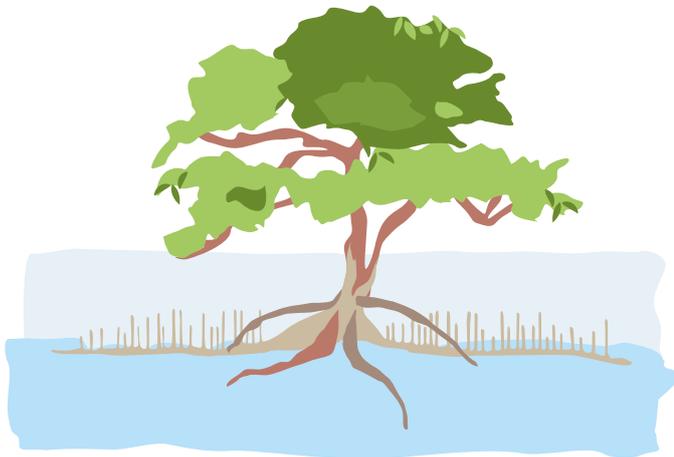

Q Can you match each part of the tree to its description ?

Glands in the leaves get rid of salt.

The main roots spread out sideways rather than downwards.

Aerial breathing roots (pneumatophores) rise from the main roots to provide them with oxygen.

Prop roots grow down from the trunk to hold the tree in place during storms.

Q What type of water are mangrove trees specially adapted for?

.....
