PRESENT

# ILLUMINATURE

## A A Shimmering Wetland Welcome

Your magical illuminated wetland journey starts under the glittering WWT Lumagica archway, then dip your feet in to the blue 'waters' of our light tunnel. Dance under the 'rainfall' lights before meeting our glorious giant heron.

## B Flutter, Flit and Flicker

Dazzling dragonflies lead the way to the shadow play hut, where you can create amazing animal shapes and shadows. Bright fireflies flit in the trees, and you can spread your #WetlandWings with a unique animated photo opportunity.

## C Captivating Critters

The beautiful hungry Eurasian crane has an eye on some tasty wetland creatures! Get close, can you see what they are? Next transform yourself into a winged nocturnal icon, becoming a batman or a batgirl with our second dazzling #WetlandWings.

## D Seasonal Wetland Wonders

Let it glow! Have fun lighting up the glorious birds you can see throughout the year at the London Wetland Centre. Then there's another opportunity for some #WetlandWings. Don't forget to share your amazing photos with us on Facebook or Instagram!

## E Hoppy Days!

Put some spring in your step and jump, jump, jump like a frog to create your own fun light show! Marvel at the amazing life cycle of the frog as you enter our awesome amphibian archway.

## F Club Tropicana

Be dazzled by the sparkling Hawaiian goose, then be bathed in the fabulous pink glow of our flamboyant flamingos and the pinkest #WetlandWings photo op you can imagine!

## G Birds of a Feather

Our feathered wetland friends are shining bright tonight and ready for you to meet them. A pair of stunning kingfisher wings are waiting for you to create another great photo, animated GIF or boomerang to share! #WetlandWings

## H Into the Woods

Take a stroll where the wetlands meet woodlands and say hello to Winifred, our gorgeously glowing giant barn owl.

## I Swan Lake

The final magical #WetlandWings photo op transforms you into a beautiful swan, and you'll get to view the magnificent moonlit silhouette of swans on a night flight.

## J Otter-ly Amazing!

We are nearing the end of our sparkling and shimmering wetland trail but there is still plenty of fun to be had. Say hello to our super-cute and playful otter family!
